

# Responsive design

The slides contain screenshots of desktop, tablet and mobile views. Testing for responsive design includes checking for overlapping features and text at smaller screen widths, checking for content dropping off the edge of the screen and making sure that text is easy to read and images make sense.

# Desktop – people's projects page

The screenshot shows a web browser window with the URL [https://wildlife-patch.herokuapp.com/get\\_peoplesprojects](https://wildlife-patch.herokuapp.com/get_peoplesprojects). The browser's tab bar includes 'Home - BBC News', 'Pushing To Heroku | Deploying', 'mongodb - Bing', 'Data | Atlas: MongoDB Atlas', and 'Wildlife Patch Home'. The website's navigation bar is green and contains links: Home, Wildlife Surveys, People's Projects, Profile, Add Own Project, Manage Categories, Contact Users, and Log Out.

The main content area has a bright green background with the title 'People's Projects' in large black text. Below the title is a large image of a wooden structure filled with many small, round, perforated wooden discs, likely for bird nesting or pest control. Overlaid on this image is a search bar with a magnifying glass icon and the text 'Search Tasks'. Below the search bar are two buttons: a red 'RESET' button and a green 'SEARCH' button.

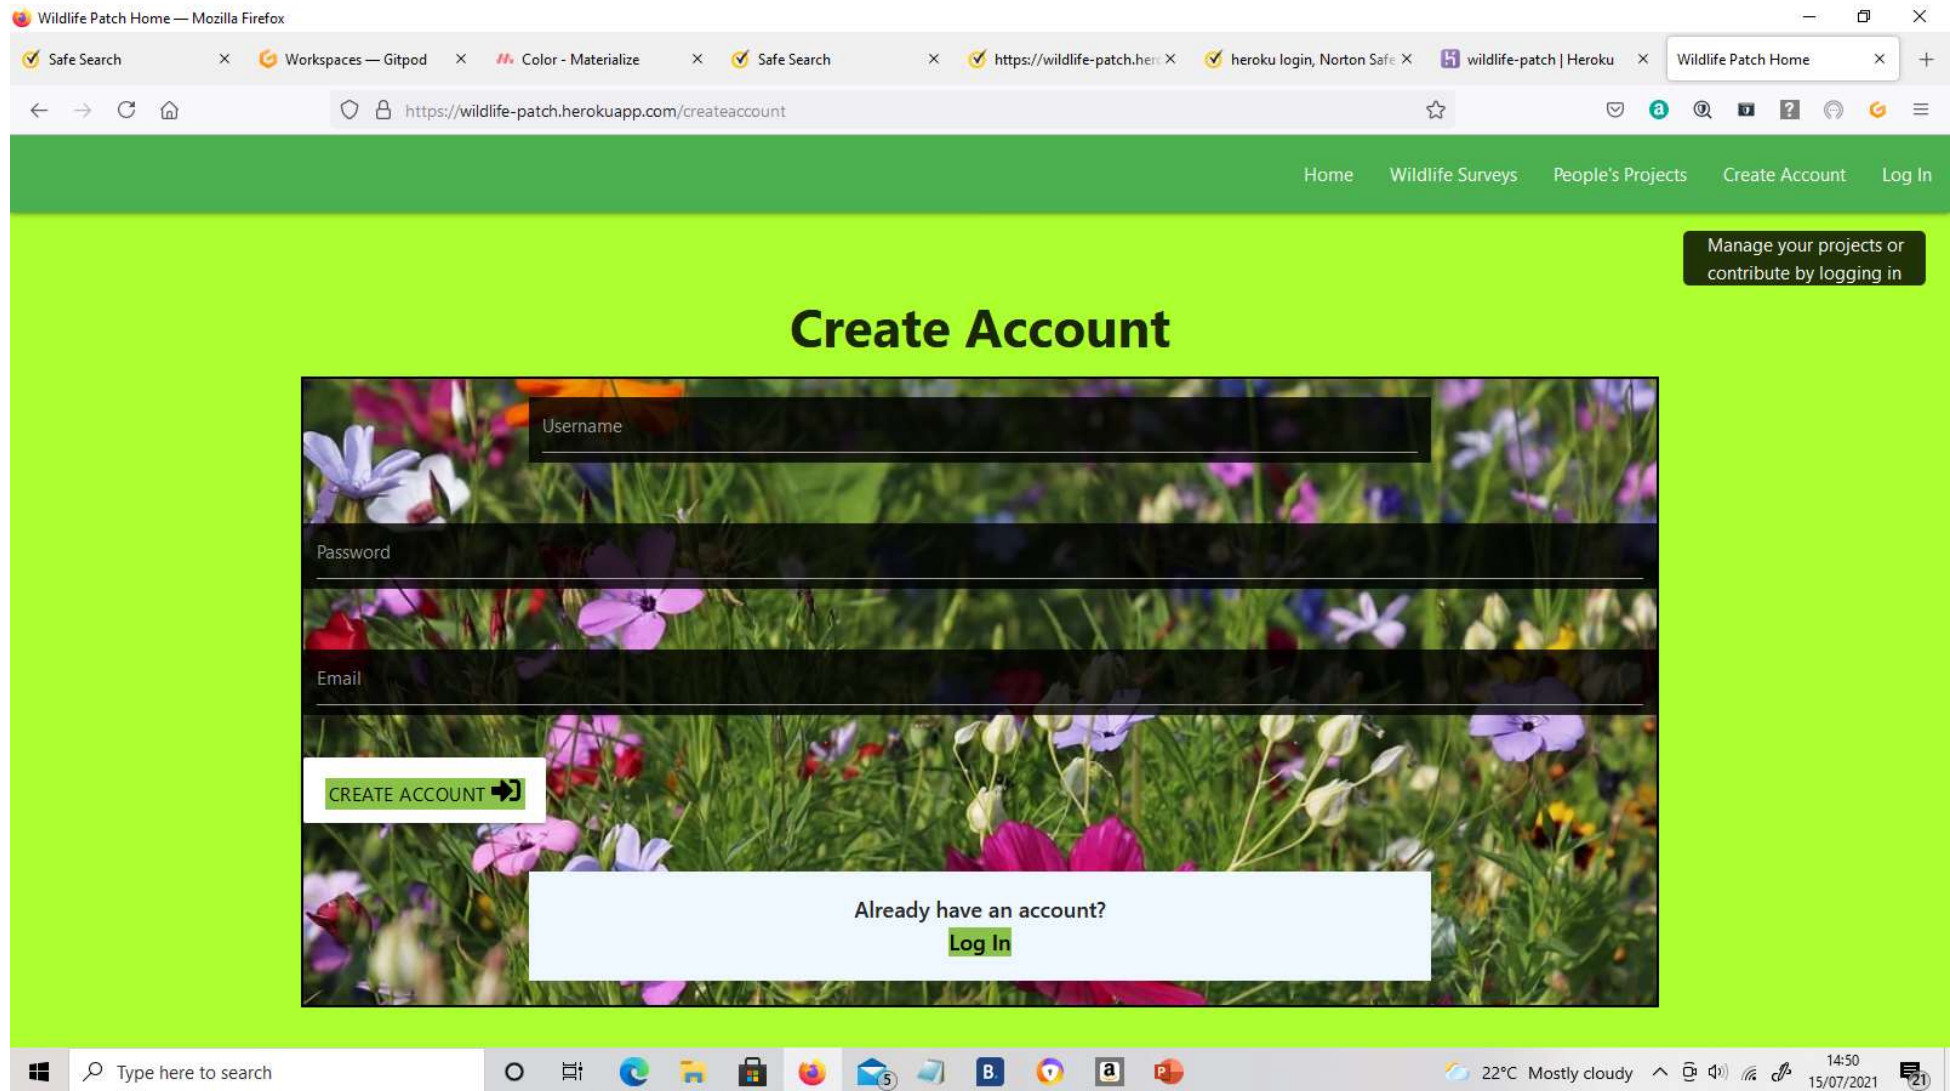

Below the search bar, there are two project entries, each with a dropdown arrow, a small image, and a title:

- Shelter - Bird box**: This entry has three buttons below it: a green 'ADD OWN PROJECT' button, a green 'EDIT PROJECT' button, and a red 'DELETE PROJECT' button.
- Pest\_control - Copper tape for slugs**: This entry also has three buttons below it: a green 'ADD OWN PROJECT' button, a green 'EDIT PROJECT' button, and a red 'DELETE PROJECT' button.

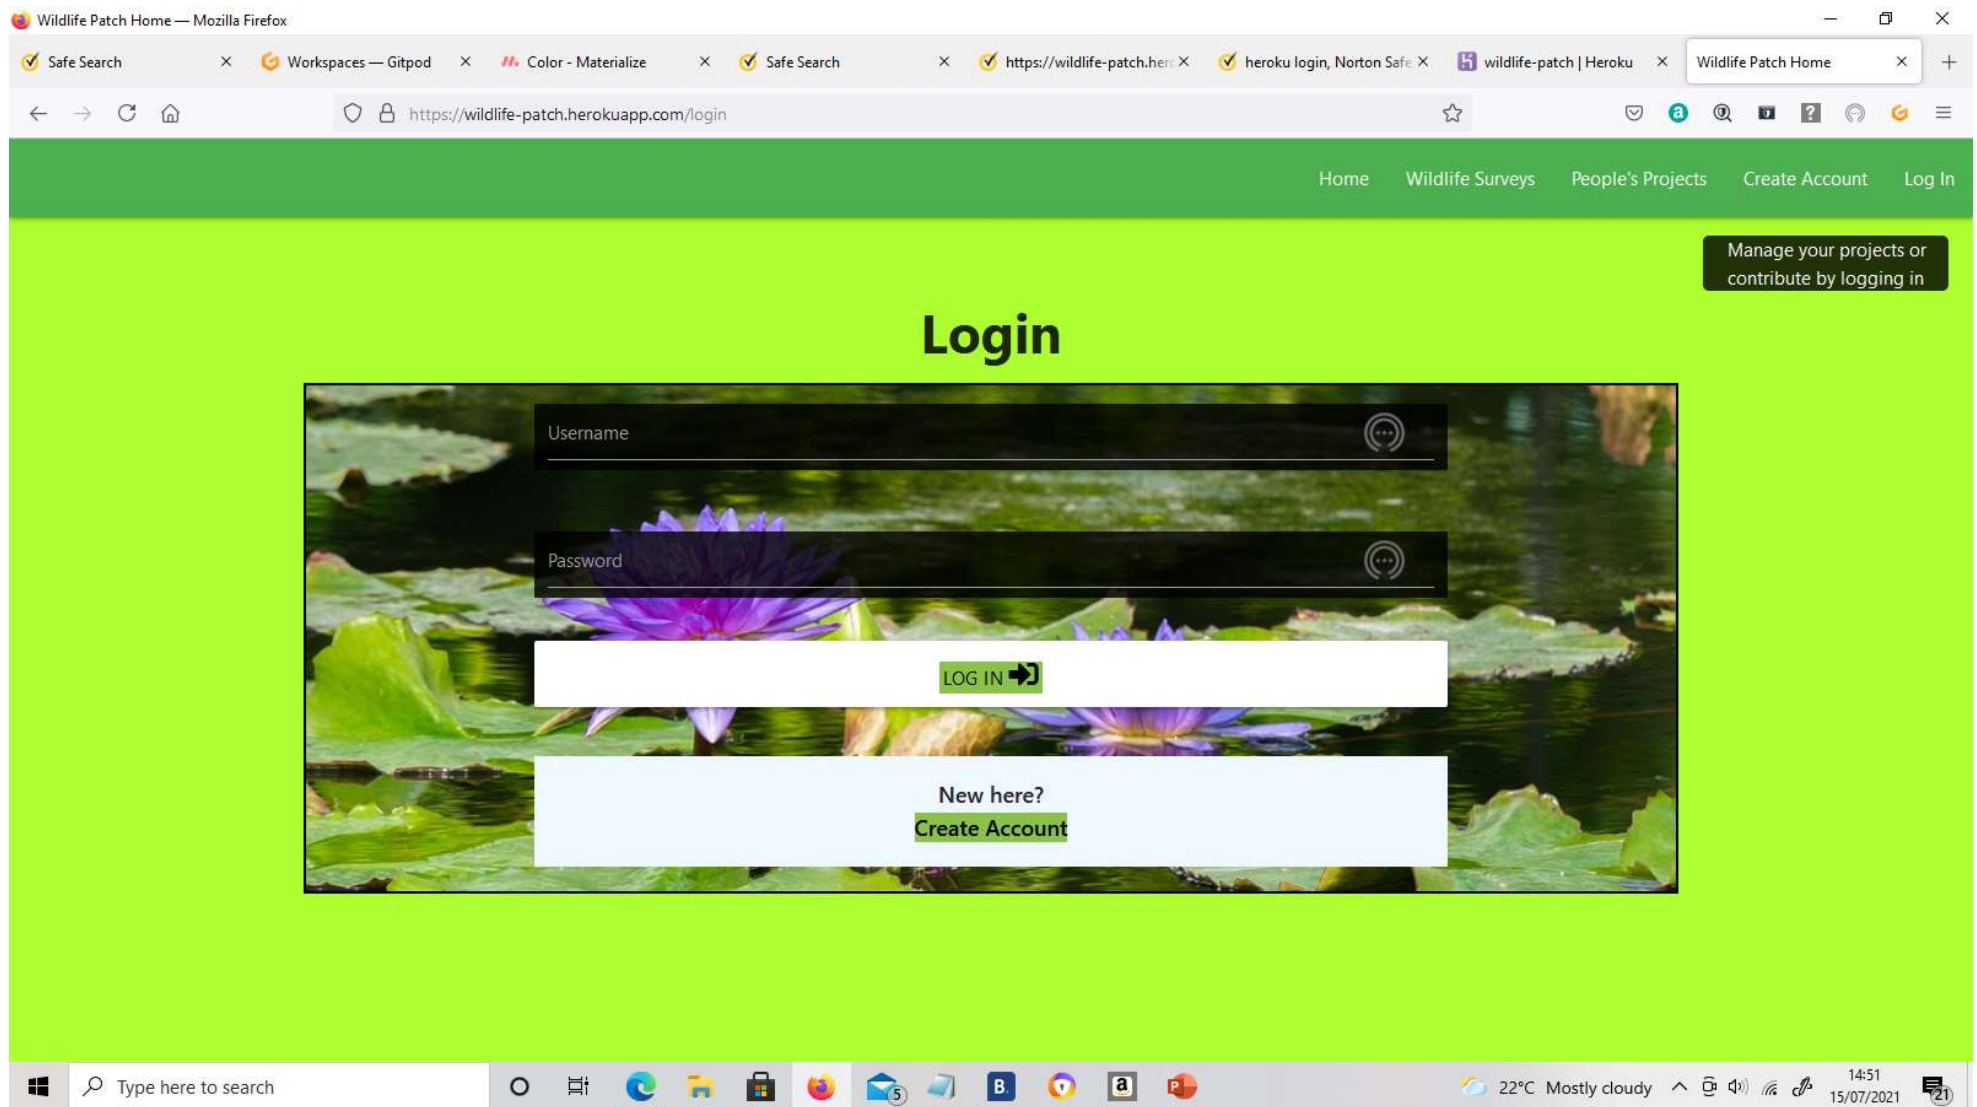

The Windows taskbar is visible at the bottom, showing the search bar with the text 'Type here to search', several application icons (including Edge, File Explorer, and various utility apps), and the system tray displaying '18°C Sunny', the time '21:27', and the date '15/07/2021'.
